Bringing You the Latest News, Winners & FUN!

Letter from the Founders
Andy & Judy Amada

HAPPY NEW YEAR to all of our fellow PowerPickers! What a year 2024 was. There were THREE jackpots at or over $1 BILLION and we all took aim. Close calls along the way, but the BULLSEYE remains the goal and we are after it! Welcome to all of our new players and a grateful wave to all of you who never say never, and who get the word out about our very unique pooling service. Remember, when you pool, your pick definitely becomes POWERFUL.

With regard to jackpots, we now stand at EIGHTY-ONE times of 5 out of 6 in The Pick game. We mention that one because, WOW, it sure seems like that we have a bead on finally wrapping our arms around that one. And face it, even sharing a "lowly" $1 Million would scratch that itch in a big way.

And speaking of scratching, scratcher pools are still a favorite for a fast results turn around and a very decent return. We know this is true with all scratcher games, so we are happy to offer this one-of-a-kind offering to all of our members. We do send weekly reminders, but you can sign up for these once a week pools on the EZPooling website as well. **Stay tuned for a new $50 scratcher ticket with a $5 million top prize too. That will be coming out in the next month.**

In other exciting news, you have likely heard about the Mega Millions game making some major changes. In fact, you may have even read about it here first. (We're blushing).

We are busy at work to make sure that the transition is a smooth one for automatic players, as well **as EZPooling players. This change will happen on April 5,** so stayed tuned to our next newsletter, which will have more information. We can say now that, there is nothing you need to do in this regard. We will take care of everything.

The most important change is that ALL Mega Millions tickets will now be Multiplier Tickets. For those of you who don't know what that is, the Mega Millions folks randomly select a "Multiplier" number before the drawing begins. It could be anything from a two to a 10. Then all non jackpot prizes will be multiplied by that number drawn. So if the prize is, say, $10, and the multiplier is 5, then your prize becomes $50, and the $1,000,000 prize goes up to $10,000,000!! This should add a new level of excitement to the game as well. The odds will lower a tiny bit, which is a very good thing.

As we begin 2025, we are even more committed…if that's even possible…to making more winners and always even bigger winners too. So we hope you will join us in that journey and we will make every attempt to throw in some fun and surprises along the way. **Wishing you and yours a most wonderful, healthy, happy and wealthy New Year ahead! Here we go!**

Just a Thought…

The odds of going to the store for a loaf of bread and coming out with ONLY a load of bread are three billion to one!
