Bringing You the Latest News, Winners & FUN!

Letter from the Founders

Andy & Judy Amada

Greetings Fellow PowerPickers! While we had a fabulous spring, the party had to end and now we desert dwellers are wishing we were up north with all of you who can escape the heat. Historically, with hot summers come hot jackpots. We would say that jackpots normally soar in the summertime, but lately it seems that they soar on a fairly regular basis...no matter what the season. You have undoubtedly heard about the young man in WI who felt lucky one day and became the latest powerball jackpot winner to the tune of \$768 million! It happens to someone...may as well be YOU!

So since we know that big jackpots pop up at any time, it's always a good thing to be a 'Steady Eddie' when it comes to playing the lottery. Statisticians tell us that consistency wins the day when it comes to playing the lottery. Mark us down as believing that winning \$1 million, \$40 million or \$1 BILLION would be just dandy with us. Any ol' jackpot will do. And isn't it fun to realize that you have up to six nights each and every week to be that lucky guy or gal? Psst...Lady Luck! Over here! Lay it on us!

Whether you are playing automatically and are covered no matter what you're up to, it's also been a great addition to be able to go to our EZPooling website and sign up whenever YOU are feeling lucky. People order day or night, weekdays or weekends and BAM...they're

in the game and eligible to win! No standing in line, no running out to the store, just a simple, easy and convenient way to be covered for the games in your choice of group sizes and/or number of tickets. What a concept, huh? When you have a payment method on file with us, you can take care of your lottery play whenever you like. Did you know that you can have multiple payment methods on file? Yup, it's true. You can add a card or a bank account number whenever you like. Currently, you need to call our office to add a payment method. We feel that this way, your information is not subject to any unwanted scrutiny because your information is simply not online for anyone to see it. We may change that one day, but for now, we are happy to talk to you and set it up. This way you can choose your method of payment and that may be more convenient for you. It's up to you!

Remember that PowerPick was designed to give lottery players a better chance at winning than playing on your own; and that's exactly what pooling does. With today's odds, it's the best and smartest way to play. Have a safe, happy and wonderful summer season. We'll see YOU in the Winner's Circle!

Just a Thought...

**I thought growing old
would take longer.**

Our latest "Biggies"

In case you missed our latest news from April, YES, we hit the bullseye on a \$53,000 Fantasy 5 Jackpot! That makes THREE Fantasy 5 jackpots.

And just a few weeks later...BAM, missed \$14.4 million by only ONE number for a second place prize of \$2,000.

That makes an amazing 76 times that we have missed The Pick jackpot by one number. In other 'winning' news, we also saw a couple of \$200 winners in Mega Millions. Each of them were one number away from \$10,000.

Things happen in "threes" right? So we are counting on another big winner in the very near future.

Be with us when it happens!!!
