PowerPick *Player's Club* Goodtimes

Bringing You the Latest News, Winners & FUN!

Letter from the Founders *Andy & Judy Amada*

Happy Spring time everyone! While most of the country relishes the warming temperatures, must admit to an involuntary shudder at the prospect of summer here in southern Arizona. Let's focus on the positive...like WINNING!

The big changes in the Mega Millions game are upon us, beginning with purchases made on April 5 for the April 8 drawing. We have provided all of the pertinent facts to delight and intrigue you. While the bump in price is no one's favorite change, the folks at Mega Millions are making some concessions for that. Read all about it on the back page of this newsletter.

We have been very busy working with programmers to make the necessary changes to our program to accommodate the changes. You will see the changes reflected on the EZPooling website after the April 4 drawing. Yup, change is not always easy, but we are curious to see how this new matrix plays out. If you normally play multiplier selections, you know how it works. If you don't, give it a shot and see how it rolls out. We are here to help, so if you have any questions, please feel free to call. Happy to help, as always!

In scratcher pool news, The Arizona Lottery came out with a new \$50 scratcher card that we have just started offering. Something about a new game that is intriguing. All the prizes are up for grabs and scratcher odds are among the best.

We also offer pools in a \$20 ticket, as well. You may have noticed that we occasionally will offer a one time big time scratcher pool. Sometimes it's for a whole pack of scratchers and sometimes for a very large number of them. In all cases, the group size remains at only 10 people. Watch for emails announcing these specials. They do fill up fast, and we have so much fun redeeming them, and rooting for being able to take a trip down to Lottery headquarters to cash in a big winner for all

Mega Millions Game Changes Starting After the April 4th Drawing

Starting with the April 8th drawing, all Mega Millions selections will include a Megaplier and each line of play will have its own megaplier. The price for each line of play will be \$5. The jackpot will also start at \$50 Million instead of \$20 Million.

The megaplier will now include a 10. This means ALL non-jackpot prizes will be multiplied by 2, 3, 4, 5 or 10. So, the \$1,000,000 second prize will be \$2,000,000, \$3,000,000, \$4,000,000, \$5,000,000 or \$10,000,000. And the other non-jackpot prizes will also be multiplied.

Also, the \$2 prize will increase to \$5 and the \$4 prize will increase to \$7. These prizes like the other non-jackpot prizes will be multiplied between 2 and 10 times. See the table below.

The megaplier used to be a single drawn number that applied to all tickets. Now the megaplier will be printed on the ticket and each row of plays will have its own megaplier. So when you order a pool and see the tickets that will be purchased, the megaplier will not yet be known until we buy the tickets. By 6:00pm the day of the drawing, we will have purchased the tickets and will have uploaded the megaplier for each line of play.
